Intelligent Money British GT Championship  
Round 9 – Silverstone 7-8 November 2020.  
Race Director Note 1  
04.11.2020

To all competitors of the Silverstone 500,

Thank you for your cooperation so far in reducing team numbers to the strict minimum. I want to clarify that ONLY absolutely essential team personnel can attend the event. We have worked with Motorsport UK to get the recognition and permissions within UK Government (DCMS) and we cannot afford to be casual with any of our procedures, as such I do have sympathy with various people who cannot attend, be it family, sponsors, and special friends. But by letting non-essential people in we could have ramifications for future meetings in 2021.

For some very short-term sacrifices, we are working to deliver a responsible performance this weekend and looking ahead to ensure that the 2021 season will fulfil our competitor's ambitions. We need to respect the rules and regulatory framework in place allowing us to race this weekend.

Can I stress now, in line with the Silverstone Circuit venue rules, any teams that are found with personnel onsite without an approved working role, without an operational purpose, or any personnel who has not been applied for may be liable to expulsion from the Venue. It may be harsh, but the Government departments are not acting casually. Teams have now submitted personnel attending forms and should contact SRO should any of the submitted and approved names change at any time, team managers you are responsible for your personnel onsite having the correct approval to be at the Venue, as applied for.

Thank you

Peter Daly.  
British GT Race Director.
